| Provider | Dr Elara Vale | Status | Final |

2023-10-03

Dr Neri Solan, Example Cedar Reproductive Centre

Re: Maya Chen, DOB 1993-03-14

### Reason for referral

Dear Dr Solan: Please assess Maya Chen when she reaches twelve months of attempts in January 2024. She began trying January 1, 2023 and has no known pregnancy. This advance referral reflects waiting time, not a confirmed infertility diagnosis.

### Relevant history

Regular cycles 27-31 days, mild cramps, no pelvic surgery, STI/PID history or clinical hyperandrogenism. Cervical cytology February 2022 NILM. Iron deficiency without anemia treated in 2022; May hemoglobin 130 g/L and ferritin 34 ug/L.

### Current management

Folic acid 400 micrograms daily. No drug allergies. Please consider ovulatory, tubal and partner evaluation if conception has not occurred. Yours sincerely, Dr Elara Vale. Copy to patient.

Related records: D006, D010
